

12 March 1976

MEMORANDUM FOR: Director, Review Staff
THROUGH : Executive Officer, DDS&T
SUBJECT : SSC Draft Report
REFERENCE : RS No. 76-0302, 9 March 1976

1. This memorandum is to advise the Review Staff that a representative of the DDS&T has reviewed the draft section of the SSC Report entitled History of the Organization and Functions of the Central Intelligence Agency - Summary Version.

2. We found on page 38 the following statement concerning NPIC - "...it was first a component of the DDI before being transferred to the Directorate of Science and Technology (DDS&T) after the creation of that Directorate in 1963." For clarity and accuracy we suggest the sentence end after the parenthesis, (DDS&T), and insert after the word transferred, "in 1973". Preceding paragraphs state the formation and date (1963) when the DDS&T was created.

3. As far as the DDS&T is concerned the History Section is approved for release.
